

Product information | TECHNICAL DATA SHEET

ETHYL ALCOHOL 70%

400 ml, 10.86 Oz, 308 g.

GENERAL DESCRIPTION

Hydroalcoholic solution ideal for cleaning and disinfecting any type of surface.

FEATURES

- Disinfecting power.
- Cleans thoroughly.
- Ease of application.
- Hydroalcoholic Solution.
- Multi-surface.
- No added perfumes.

APPLICATIONS

Ideal for cleaning surfaces of all kinds, including glass, metals, and plastics like methacrylate; anything from steering wheels and other plastics found on the interior and exterior of vehicles, helmets and visors, to household furniture and office equipment, like tables, computer and cell phone screens. In addition to its disinfecting power, the product works to easily clean the surfaces of leftover residues from grease, ink stains, paint and traces of glue from self-adhesive labels. It is recommended to do a preliminary test to ensure that the product does not compromise the aesthetic appearance of the object.

INSTRUCTIONS FOR USE

- Due to its formula, it may cause reactions with certain types of inks and paints.
- Use the can in a vertical position and apply at a distance of about 20 cm.
- For a proper disinfection, the surface in question must be dampened with the product for one minute, then removed with a soft cotton cloth.
- Do not apply on equipment that is plugged in.
- Request a safety data sheet.

PHYSICAL PROPERTIES

Alcohol/water ratio: 70% (v/v)
Valve: Female

APPEARANCE

LABEL

EX014PR0003 Ethyl alcohol 70%

CAP SYSTEM

Pocket Cap
Fino - Fine

PACKAGING

Nominal capacity: 400 ml.
Heat resistance of packaging: <50°C
Propellant: DME

Box (6 units)
205 X 140 X 200 mm.
